

**Hydrological Perspectives
for
Sustainable Development**

Proceedings of the International Conference on Hydrological
Perspectives for Sustainable Development - (Hypesd-2005)

23-25 February 2005, Roorkee, India

Editors

***M. Perumal, D.C. Singhal, D.S. Arya, D.K. Srivastava, N.K. Goel,
B.S. Mathur, H. Joshi, Ranvir Singh, M.D. Nautiyal***

**Department of Hydrology
Indian Institute of Technology Roorkee
Roorkee – 247 667, India**

Co-sponsored by ENVIS Centre, JNU, New Delhi

Published by Allied Publishers Pvt. Ltd., ISBN: 81-7764-786-5

Theme – 1: Hydrological Data and Information Systems

1. Sustainable Development of Water Resources — A Revisit, *C.D. Thatte* 3
2. Framework Development of Hydrological Observational Network and Hazard Mitigation Modeling System for Andhra Pradesh, *K. J. Ramesh, G. Prasad Rao and A. Ramakrishna Nagaraju* 11
3. Development of Dsswhr - An ArcGIS Based Decision Support System On Watershed Hydrological Responses, *A. Sarangi, D.K. Singh, A.K. Singh and C.A. Madramootoo* 20
4. Tefases: A Spatial Decision Support System for Landuse Planning of Ethiopian Agricultural Watersheds, *Belete Berhanu and D.S. Arya* 32

Theme –2: Meteorological and Hydrological Extremes and their Management - Floods

5. The Probabilistic Behavior of Extraordinary Floods, *Richard M. Vogel, Ellen M. Douglas, and Attilio Castellarin* 47
6. A Partitioning Methodology for Identification of Homogeneous Regions and Reliable Prediction of Flood Quantiles in Ungauged Basins, *Bhagabat Prasad Parida* 59
7. Cluster Formation for Regional Homogeneity Using Fuzzy K-Means, *V.K. Bhatt, N.K. Goel and B.S. Mathur* 70
8. Estimation of Flooding-Prone Areas for Ungauged River Reaches, *S. Barbetta, C. Pandolfo, M. Stelluti, F. Melone and T. Moramarco* 78
9. Accuracy of an Adaptive Water Level Forecasting Model for Sites Without Rating Curve, *S. Barbetta, F. Melone and T. Moramarco* 92
10. A Reappraisal of Discharge Estimation Methods Using Stage Hydrographs, *Muthiah Perumal and Tommaso Moramarco* 104
11. Application of A Conceptual Rainfall-Runoff Simulation Model To Three European Catchments Characterised By Non-Conservative System Behaviour, *M. Goswami and K.M O'connor* 117
12. On The Similarity of Linearized Lumped Hydrologic Models and Diffusion Analogy Model in Flow Simulation, *Narayan C. Ghosh and Govinda C. Mishra* 131
13. Geo-Informatics Approach for Augmentation of Lead-Time of Flood Forecasting — Bangladesh Perspective, *Md. Mizanur Rahman* 144
14. Modeling Rainfall-Runoff Process Using Grey System Theory, *H.V. Trivedi and J.K. Singh* 158

15. Real Time Flood Forecasting Using Fuzzy Logic, *A.K. Lohani, N.K. Goel and K.K.S. Bhatia* 168
16. Evaluation of Ann Technique for Rainfall-Runoff modeling in A Large Watershed, *Sanjeev Kumar Jha and Ashu Jain* 179
17. Flood Forecasting Using Artificial Neural Networks, *M. Raghuwanshi, C. Chatterjee, N.S. Raghuwanshi, R. Singh, and R. Kumar* 187
18. Artificial Neural Networks for Daily Rainfall Runoff Modeling in Satluj Basin, India, *Archana Sarkar, Avinash Agarwal, R.D. Singh and Sanjay K. Jain* 196
19. Estimation of Monthly Runoff From Catchments Using Artificial Neural Networks, *Umesh C. Kothiyari, and Pooja Jain* 207
20. Short Term Forecasting Using Artificial Neural Networks, *Sanjay Kumar, Rakesh Kumar, A.K. Lohani and R.D. Singh* 216
21. Hydrology of Extremes: Droughts, *K.D. Sharma and R.P. Pandey* 223
22. A Soil Moisture Balance Technique for Identification of Agricultural Drought, *Raveendra K. Rai, Rajendra P. Pandey, M. K. Hardaha, Manoj K. Jain and Salil K. Shrivastava* 244
23. Drought Severity Analysis of Betwa River System (India), *R.P. Pandey, S.K. Mishra, Ranvir Singh, and U.C. Chaube* 252
24. A Neural Network Approach for Drought Forecasting, *A.K. Mishra and V.R. Desai* 266
25. A Comparative Study of Meteorological Drought Assessment Methods — A Case Study, *V. Kanakasabai, M. Rajendran and V. Venkatesa* 275

Theme 3: Sustainable Water Related Ecosystems

26. Ecology and Sustainable Management of Aquatic Ecosystems - A Hydrological Perspective, *Brij Gopal* 291
27. Water Balance Study On A Constructed Wetland, *K.R. Harne and Himanshu Joshi* 300

Theme 4: Watershed Management

28. Participatory Watershed Management — Policies and Programs, *J.S. Samra* 313
29. Correct Concepts Are Critical, *R.P. Rudra and W.T. Dickinson* 325
30. A Conceptual Framework for Sustainable Watershed Management, *R.P. Rudra, W.T. Dickinson, B. Gharabaghi and G. J. Wall* 335

31. Planning Change: Case Studies Illustrating The Benefits of Gis and Land-Use Data in Environmental Planning, *Darius J. Semmens, and David C. Goodrich* 346
32. Use of Artificial Intelligence Tools in Modeling Surface and Subsurface Runoff in Mid-Himalayan Watersheds, *R.M. Patel, S.O. Prasher, V.N. Sharda, and P.R. Ojasvi* 355
33. The Role of Modeling in Integrated Catchment Management, *B.F.W. Croke, A.J. Jakeman, R.A. Letcher, and S.M. Cuddy* 368
34. Rainfall-Runoff Modeling of A Small Agricultural Watershed Using Gih_Cal Model, *A. Kumar, A. Bhadra, N.S. Raghuwanshi, R. Singh and M.P. Tripathi* 376
35. Watershed Management for Sustainability, *M.A. Khan* 385
36. An Improved Rainfall-Runoff Model Based On Scs-Cn Methodology, *S.K.Mishra, R.K. Sahu, T.I. Eldho and M.K. Jain* 396
37. Derivation of Amc- and Storm Duration-Dependent Curve Numbers From Daily Rainfall-Runoff Data, *S.K. Mishra, R.P. Pandey, M.K. Jain and Ranvir Singh* 404
38. Process Based Modeling in Understanding Erosion Processes and Soil Erosion Assessment At Hillslope Scale in The Lesser Himalayas, India, *Suresh Kumar and Geert Sterk* 420
39. GIS Based Framework for Monitoring Livelihoods of Stressed Households in Dudhi Watershed, *P.P. Lodha and A.K. Gosain* 428
40. Evaluation of Existing Conservation Structures in A Hilly Watershed: A Case Study in Manipur, *K. Sonamani Singh, A.P. Mukherjee and Deepak Khare* 436
41. Automatic Delineation of Drainage Network From Dem — A Region Growing Approach, *T.V. Reshmidevi and R. Jana* 449
42. Sustainable Management of Nutrients in A Small Agricultural Watershed Using Goal Programming, *Subrat K. Behera, R.K. Panda, and S. Behera* 456
43. Hydrological Aspects of Rainwater Harvesting in A Village Pond in The Kandi Belt of Jammu Region, *V.C. Goyal, Vijay Kumar, S.P. Rai and Omkar Singh* 464
44. Dry Spell Analysis for Supplemental Irrigation Planning in Ambala Region in Haryana, India, *Ranjit Kumar, Ranvir Singh and R.P. Pandey* 473
45. Systems Approach To Socio-Economic and Ecological Management of A Small Badland in Narmada Valley (India), *S. Tignath, U.C. Chaube, S.K. Mishra, and A.K. Awas* 485

Theme 5: Large-Scale Hydrology

46. Effect of Climate Change On Flow Regime of A Glacierized Himalayan Basin, *Manohar Arora, Pratap Singh, N.K.Goel and R.D.Singh* 499

47. Downscaling of General Circulation Models To Assess The Impact of Climate Change On Rainfall of India, *Shivam Tripathi and V.V. Srinivas* 509

48. The Xinanjiang Model and Its Derivatives for Modeling Soil Moisture Variability in The Land-Surface Schemes of The Climate Change Models: An Overview, *Bhabagrahi Sahoo* 518

49. Climate Change and Hydro -Sustainability — Issues and Perspectives, *Malti Goel* 533

Theme 6: Sustainable Surface Water Development

50. Sustainable Fresh Water Resource Systems, *Subhash Chander* 549

51. Multi Reservoir Operation Using Particle Swarm Optimization, *M. Janga Reddy and D. Nagesh Kumar* 556

52. Estimation of Optimal Reservoir Yield and Crop Plans, *Deepti Rani, D.K. Srivastava and T.R. Gulati* 565

53. Analysis of Water Storage of Major Reservoirs of India, *Sharad K. Jain and Vijay Kumar* 577

54. Assessment of Optimal Yield in A System of Reservoirs, *R.K. Panigrahi and D.K. Srivastava* 587

55. Simulation Study of A River Linking Project, *Bibhash Sarma and D.K. Srivastava* 598

56. Optimal Reservoir Operation for Hydropower Production Via Genetic Algorithm, *K.S. Ustoorikar and D.G. Regulwar* 609

57. Optimal Operation of Multiple Reservoir Systems - A Case Study, *D.G. Regulwar and P. Anand Raj* 620

58. Simulation of Reservoir Operation of A Complex Water Resources System, *M.L. Waikar, S.S. Kashid, and D.K. Srivastava* 631

59. Optimal Operation of Reservoir System Using The Sdp Model, *D.V.S. Bhagavanulu, M. Rajakumar, and M.P.Saravana Kumar* 642

60. Linear Programming Model With Application To Multipurpose Reservoir, *R.S. Naidu, R.N. Ingle, and P.D. Porey* 656

61. Application of Spatial System Dynamics for Watershed Modeling, *Veerakcuddy Rajasekarm* 665

62. Hydrology Agenda in Aid of Sustainable Water Resource Development in Gujarat State, *S.K. Gupta and R.D. Deshpande* 674

63. Evapotranspiration Estimation for Different Agroclimatic Regions, *S. Mohan and Marykutty Abraham* 685
64. Reference Evapotranspiration: Comparison of Turc's Model With Penman Monteith Model for Tocklai, Jorhat, *D. Jhajharia, Md. I. Ali, G. Agrawal and M.S. Sevda* 694
65. Hydrological Planning for Water Harvesting (Case Study of Ethiopia), *Alemayehu Mengiste* 699
66. Surface Water Harvesting for Rural Development in Drought Stricken Areas — A Case Study of The Wadi Araidaya Earth Dam, South Darfur, Sudan, *Hamid Omer Ali* 709
67. Artificial Neural Networks for Effective Decision Making in Irrigation Planning, *K. Srinivasa Raju* 720
68. Optimal Allocation of Irrigation Water Through Canal Network With Minimum Seepage and Evaporation Criteria, *Joygopal Jena and D.K. Srivastava* 728
69. Neural Network Approximation of A Water Management Simulation Model, *C. Sivapragasam, P. Vincent, G. Vasudevan and N. Natarajan* 738
70. Water and Sustainable Urban Habitat, *M.C. Philipose and B. Sunil Kumar* 747

Theme 7: Sustainable Groundwater Development

71. Model-Assisted Planning of Sustainable Groundwater Development in Coastal Aquifers, *Deepak Kashyap and Anupma Sharma* 759
72. Performance of Radial Collector Well Running Parallel To A River, *G. C.Mishra, Sudhir Kumar, and M. L. Kansal* 770
73. Isotope Hydrology in India: What Has Been Learned and The Way Forward? *S.K. Gupta and R.D. Deshpande* 782
74. Management of South Chennai Coastal Aquifer System, *S. Mohan and S.K. Pramada* 793
75. Importance of Lateral Groundwater Flow Modeling in A Semi-Arid, Intensely Irrigated Agricultural Basin: A Case Study of Gundal Sub-Basin in Cauvery River Basin, India, *M. Sekhar, S.N. Rasmi, C. Kumar and L. Ruiz* 802
76. Numerical Modeling of Groundwater Flow Conditions in A Multi-Layered Aquifer System in Alleppey District, Kerala, India, *Noble Jacob and S.V. Navada* 816
77. Groundwater Resource Evaluation of A Typical Watershed in Piedmont Zone of Himalaya, India, Using Integrated Geo-Electrical and GIS Techniques, *M. Israil, Mufid Al-Hadithi and D.C. Singhal* 825

78. 2-D Inversion of Magnetic Data for Delineating Bedrock Depth and Potential Groundwater Zones in Hard Rock Terrain, *N.S. Krishnamurthy, Dewashish Kumar, G.K. Nayak and Shakeel Ahmed* 837
79. Tlert To Decipher The Unsaturated Zone, *Tanvi Arora, N.S. Krishnamurthy and Shakeel Ahmed* 846
80. Pumping Test in Partially Penetrated Open Wells in Laterite Formation- A Case Study in A Micro-Watershed of Midland Belt of Kerala, *M. Nazimuddin, S. Mini, S.K. Sadanandan and S. Sreevallabhan* 853
81. A Planning Model for Groundwater Development in Coastal Deltas With Paleo Channels, *S.V.N. Rao, B. S. Thandaveswara, S. Murty Bhallamudi and V. Sreenivasulu* 862
82. Characterization of Aquifer and Identification of Potential Groundwater Recharge Zones, *S.S. Mali, D.K.Singh, A.K. Singh, and O.P. Singh, Manoj Khanna* 877
83. Impact Assessment of Sewage Irrigation On Water and Soil Quality — A Case Study, *Sandeep M. Narulkar and Deepak Mathur* 888
84. Groundwater Recharge Systems of The Lei-Basin(Rawalpindi-Islamabad, North Pakistan), *Amir H. Malik* 901

Theme 8: Water Quality

85. Sustainability of The Great Lakes of North America, An Invaluable Resource, in Need of Protection, *Edward A. Mcbean* 915
86. Grey Fuzzy Multiobjective Optimization Model for River Water Quality Management, *Subhankar Karmakar and P.P. Mujumdar* 923
87. Risk Minimization Model for River Water Quality Management, *Subimal Ghosh and P.P. Mujumdar* 832
88. Secondary Minerals As Indicators of Pollution, Athens Mine, Sanyati Catchment, Zimbabwe, *Kudzai Musiwa, David Love and Richard Owen* 941
89. Groundwater Recharge and Quality: A Case Study of Roorkee Town, Uttaranchal, *Hussain Musa Hussain, D.C. Singhal, H. Joshi, M.S. Rao, B. Kumar and S. Kumar* 952
90. Application of Advanced Oxidation Processes for The Degradation of Organic Micropollutants in Water-A Review, *Pawan Kumar Agrahari, Alok Sinha and Purnendu Bose* 962
91. Reductive Dechlorination of 2-Chloronaphthalene By Cast Iron, *Alok Sinha, Pawan Kumar Agrahari, and Purnendu Bose* 973

92. Assessment of Ground Water Quality Using Geo-Electrical and Nuclear Techniques At Iari Farm, New Delhi, *Anima Biswal, H. Chandrasekharan, B.R. Yadav, Sri Ganath Tadi, S.M. Trivedi, S.V. Navada and U.P. Kulkarni* 983

93. Osmium and Strontium Isotopic Compositions of the Ganga River Sediments: Data of A Himalayan River System, *G. J. Chakrapani* 990

94. Spatial Patterns of Groundwater Quality for Irrigation Water Use: A Case Study, *S.D. Dhiman* 997

Theme 9: Policy and Structural Arrangements in the Management of Water Resources for Sustainable Development

95. Policy and Structural Arrangements for the Management of Water Resources, *A.D. Mohile* 1007

96. National Water Resources Management Policy for Sustainable Development, *S.K. Jain, K.D. Sharma, and Anupma Sharma* 1018

97. Helsinki Rules Based Allocation of Cauvery River Waters, *K. Ravi Kumar and Rakesh Khosa* 1032

98. Role of NGOs in Sustainable Development of Shivalik Region, *M.A. Alam, Himmi Gupta and Mohit Garg* 1046

99. Local Indicators and Global Aspects for Sustainable Water Management, *Nitin Tanwar, Shashank Mehta and R.K. Khitoliya* 1054

Theme 10: Hydrological Education for Sustainable Development

100. The Postgraduate Hydrologic Education: Its Role and Future, *B.S. Mathur* 1067

101. The Hydrological Education in Ukraine: Present State and Perspectives, *Viacheslav Manukalo* 1074

102. Education in Integrated Water Resources Management in Southern Africa: A Tracer Survey of Participants of The Postgraduate Programme in Water Resources Engineering and Management (WREM) At The University of Zimbabwe, *T. Mpala and P. Van Der Zaag* 1079
